BOOK RELEASES

Get Ignited: "Your Blueprint to Discovering Purpose and Manifesting Dreams" was written to release your inner rock star; an individual who is purpose driven, fearless and passionate about the life they desire most! From the high-octane entrepreneur looking to build their very own Fortune 500 company, to the fiery educator eager to impact the lives of young people, Get Ignited is for anyone looking to uncover their life's mission and their ultimate contributions to the world.

Beautiful Power: "A Love Letter to Black Women" is a celebration of who they are through the eyes of a loving brother. To magnify the message I conducted over 100 interviews with women across the country...all ages, backgrounds and professions to insure their authentic voice was present. I was also compelled through this literary work to address the steady attack on the persona and intelligence of Black Women. The direct and subliminal messaging by the media, our community and sadly ourselves, that would like for us to believe that Black Women can be summed up as; baby mamas, foolish, money hungry, combative and lack of compassion.
